An operation was encountedly performed last week, by Dr. Thomas, anisoted by Mr. A. R. Van Pelt, Dennist, of south Felt street, on an interesting gril shout fourteen years of age, for the removal of an enlargement of the tomals. The extraneous substance had grown to mech an extent on each side of the palant, as to threaten the patient with sufficiention, and materially to affect the speech. When taken eway, they were found to be as large as a clever sized hickory tax, and wave sugment to proceed from the offices of a nagleoted notwithest. The operation was performed in a very chart spane of time, and was emissionly successful, the patient being new almost entirely rectored to health.
